The 5000's Range, the ultimate garden building

Designed for the customer with the emphasis on ultimate construction, resistance and protection. Premium finish mixed with superior construction perfect for the expert gardener.

Now Featuring additional framing and fast delivery. The perfect shed to suit your storage needs in the finest finish. These are sheds designed with durability and strength in mind.

Window and windowless versions available

Available in popular sizes. Covering 6ft, 8ft and 10ft widths over a variety of depths.

Is this the shed for you?

The ultimate outer shell..

Our finest boards used in a traditional style providing strength and quality, giving you our best protection from the elements.

Premium tongue and groove boarded cladding providing superior strength and durability.

Add your flair..

A perfect chance to personalise and add individual flair to your building. Choose from our range of treatments to add your own style.

These buildings come with a standard factory treatment, that will require further annual treatments.

Stronger for you..

These use our strongest construction method mixed with our ultimate outer shell. We double up framing at all our joints for highest stability.

The framing used is our best and doubled up for additional strength. The premium cladding provides our finest finish.

Easy for you..

We make shed simple for you by making our panels easier to manage and handle. This is done for your convenience, safety and simple assembly experience.

Easy to handle, simple to build and designed for your needs.
